• github.com/VishwaAdarsh • Andheri (E), Mumbai

PROFESSIONAL SUMMARY

Motivated B.Sc IT student with a strong foundation in frontend web development, data handling, and AI tools. Experienced in building real-world projects including business websites and data management systems. Passionate about software development and AI, eager to contribute in a practical internship environment.

EDUCATION

B.Sc Information Technology | Tolani College of Commerce, Andheri (E), Mumbai | 2025 – 2028 (*Pursuing*)

Higher Secondary (12th) | CD Inter College, Uttar Pradesh | 2024 – 2025

Secondary (10th) | CD Inter College, Uttar Pradesh | 2022 – 2023

PROJECTS

IP Address Tracker & Geolocation Tool | Python, PySide6, QFluentWidgets, Folium | 2026

- Developed a desktop application for real-time IP address analysis with an interactive geolocation map and detailed network information.
- Retrieved and visualized country, city, ISP, ASN, timezone, hostname, and geographic coordinates using IP geolocation APIs.
- Designed a modern desktop interface using PySide6 and QFluentWidgets, replacing traditional Tkinter for a premium user experience.
- Integrated Folium to generate dynamic maps and provided support for both IPv4 and IPv6 address lookups.

QR-Canvas Studio | React, FastAPI, Python, SQLite, Tailwind CSS

- Developed a customizable QR code generation platform supporting 13+ QR code types with advanced design customization.
- Implemented features including logo embedding, custom shapes, gradients, QR scanning/testing, and generation history management.
- Built a responsive and user-friendly interface for creating and managing customized QR codes.
- Developed the backend using FastAPI and Python, with SQLite for storing QR-related data and history.

Attendance System Web Application | React, Node.js, Express, PostgreSQL, FastAPI

- Developed a full-stack attendance management web application with separate Member and Admin portals.
- Implemented member registration and centralized participant record management for college events.
- Built an admin dashboard for monitoring attendance, updating participant information, and managing event data.
- Used PostgreSQL for centralized data storage and REST APIs/backend services for application functionality.
- Designed a responsive interface using React and Tailwind CSS

E-commerce Website | Next.js, React, Supabase, REST API

- Developed a full-stack e-commerce platform with product discovery, secure authentication, shopping cart, and checkout workflows.
- Implemented order management, customer accounts, and product reviews to support the complete shopping experience.

- Built an admin control system for managing products, inventory, customers, and orders.
- Used Next.js and React for the application interface, with Supabase for backend data management and REST APIs for application communication.

Vishwa Solutions – Business Website | HTML5, CSS3, JavaScript, Google Sheets

- Developed a responsive business website for Vishwa Solutions to showcase services, completed projects, and company information.
- Implemented a customer inquiry form to collect and organize project requests digitally.
- Integrated Google Sheets as a lightweight data-management system for storing and managing customer inquiries without a dedicated database.
- Designed a professional, user-friendly interface focused on improving the company's online presence and customer interaction.

SKILLS

Languages & Web	HTML, CSS, JavaScript, React, Python(Beginner)
Data & Analytics	Microsoft Excel, Power BI, Data Handling
AI & Tools	Generative AI, AI Prompt Engineering, Vibe Coding, GitHub
Soft Skills	Problem Solving, Quick Learning, Communication, Adaptability, Teamwork

CERTIFICATIONS

- Power BI Certification – DVOC Institute, Andheri, Mumbai
- Generative AI Mastermind – Outskill (2-Day Intensive Program)
- Prompt Master – Google Gemini (2025)

LANGUAGES

Hindi (Reading, Writing, Speaking) **English** (Reading, Writing, Speaking)
